

## MUNICIPAL OFFICE, 2022 MAIN STREET, FORESTER'S FALLS

This site used to have the home of one of the village's most colourfully-named and legendary citizens, Delorma Brown. Among his exploits, he would drive thousands of sheep in the spring and fall from dozens of farms around to the stockyards in Millar's Corners. Those were the days! The current building was the headquarters of Ross Township from 1966 to 2001, when Ross Township amalgamated with neighbours to form Whitewater Region, whose hall is in Cobden. The building now houses the local library, and the office of the Ross Museum and our Archives.
